

IDC Financial Insights: Worldwide Compliance, Fraud and Risk Analytics Strategies

IDC Financial Insights: Worldwide Compliance, Fraud and Risk Analytics Strategies advisory service focuses on the impact of technologies used by financial institutions to manage risk, remain in compliance with regulatory requirements, and modernize IT infrastructures. Through market analytics, peer insights, and thought leadership, we help financial institution decisionmakers on a regional and global level make informed technology decisions. These decisions help financial institutions achieve more predictable risk outcomes, save time, and establish a more efficient, agile, and trusted IT environment.

APPROACH

As a leading authority on risk and IT infrastructure, our global IDC research teams in North America, Europe, APAC, the Middle East and Africa, and Latin America have a vision for the future of financial services, helping clients stay ahead and invest for long-term competitive advantage. The *IDC Financial Insights: Worldwide Compliance, Fraud and Risk Analytics Strategies* service, made up of market analytics, peer insights, and thought leadership, is designed to provide a global perspective across all geographies, examining best practices and market leaders.
