

# IDC Financial Insights: Worldwide Financial Services Industry Intelligence

---

*IDC Financial Insights: Worldwide Financial Services Industry Intelligence* will provide technology vendors with market perspectives by industry subsegments, financial services core processes, technology categories, and regions/countries. This service will provide actionable information to marketers, sales leaders and professionals, product managers, market intelligence, and channels managers to accelerate and simplify their jobs, sharing detailed data on industry trends, buying behavior, industry personas, and market sizing.

---

## APPROACH

This advisory service combines both global and regional views on the financial services industry and its subsegments, providing technology suppliers with actionable information on current and future technology purchasing behavior through IDC's proprietary data and analysis.

The service enables subscribers to assess global and regional market opportunities accurately and better understand their potential prospects by analyzing ICT buyers, both IT and line of business. Research from the service will provide insights into their varying priorities, considering process improvement drivers and their linkage to technology while offering useful guidance to build sales messages and go-to-market initiatives for digital technology providers.

---

## TOPICS ADDRESSED

Throughout the year, this service will address the following topics:

- Evaluating the financial services technology market opportunity
  - Understanding the financial services sector buyers and their priorities
  - Preparing a focused go-to-market approach
  - Refining globally and regionally relevant sales messages
- 

## KEY QUESTIONS ANSWERED

Our research addresses the following issues that are critical to your success:

1. How much will financial services spend on ICT today and in the future?
  2. What are the key business drivers across key financial services processes?
  3. What technologies are financial services investing in today? And what are the differences across financial services subindustries?
  4. What are the key business priorities for tech buyers in the financial services sector, and how does that influence their technology purchasing patterns? How can you map sales opportunities against those business issues?
  5. Who are the key personas to address in financial services sector, and what are their key concerns?
  6. How can I have more relevant and timely conversations with my key customers and prospects in this sector?
  7. How can I stay on top of the issues that matter to manufacturing executives and their challenges, roles, and issues?
-
