

IDC Health Insights: Worldwide Health Industry Intelligence

IDC Health Insights: Worldwide Health Industry Intelligence provides technology vendors with market perspectives by industry subsegments, health industry core processes, technology categories, and regions/countries. This service also provides actionable information to marketers, sales leaders and professionals, product managers, market intelligence, and channels managers to accelerate and simplify their jobs, sharing detailed data on industry trends, buying behavior, industry personas, and market sizing.

APPROACH

This advisory service combines both global and regional views on the health industry and its subsegments, providing technology suppliers with actionable information on current and future technology purchasing behavior through IDC's proprietary data and analysis.

The service enables subscribers to assess global and regional market opportunities accurately and better understand their potential prospects by analyzing ICT buyers, both IT and line of business. Research from the service will provide insights into their varying priorities, considering process improvement drivers and their linkage to technology while offering useful guidance to build sales messages and go-to-market initiatives for digital technology providers.

TOPICS ADDRESSED

Throughout the year, this service will address tech suppliers' needs by geography (worldwide, APJ, EMEA, and Americas), including:

- Evaluating the health technology market opportunity
 - Understanding the health sector buyers and their priorities
 - Preparing a focused go-to-market approach
 - Refining globally and regionally relevant sales messages
-
